

ITPS E
Presentation Software and Idea Development Software

For the combined assignments of Idea Development and Presentation Software, the student will create a presentation slide show (using software such as Power Point) that would be used for an educational purpose, such as instruction, curriculum or administration. The presentation slide show must contain a design template, a title slide, title text, a hyperlink, an imported picture, and a graphic organizer. The graphic organizer must contain one main idea and at least two subordinate ideas with six details. Spacing, grammar and spelling must be appropriate and free of errors. The student must write a rationale that explains the purpose of the presentation slide show and why a concept map or diagram is used.
